Eldorado Women's Club presents HMC with gift for newly expanded Main Entrance

On Tuesday, September 5, 2018, the Eldorado Woman's Club presented Harrisburg Medical Center with a beautiful bench to add to our newly expanded Main Entrance. The bench was made from over 400 pounds of recycled plastic caps each of which had to be cleaned and sorted before being processed. The cost to have the bench made from the items totaled \$250.00 but included hours and hours of hard work by members of the club. A culmination of donations from local businesses, community members and those serving in the Eldorado Woman's Club went into the making of the benches that are displayed in Eldorado and in Harrisburg.

The Eldorado Woman's Club was established in 1926 and is part of the General Federation of Women's Club Illinois.
